2024 GSNJS PHOTOGRAPHY AND VIDEO RELEASE FORM

At GSNJS, scholars are photographed individually, and as members of team and laboratory groups, for identification purposes. Additionally, program activities are recorded informally on both photo and video media by GSNJS staff and scholars, and these images are used to create both a printed and a digital yearbook at the end of the program, and to advertise and promote the GSNJS program through the GSNJS web site. Additionally, scholars may be photographed by other agencies, such as newspapers or field trip hosts, for the purpose of promoting the NJ Governor's School program.

We ask that you grant your permission for the use of your student's image by signing in the space provided below. **Please fill in only ONE section.**

If you do not grant this permission, it will be the responsibility of your student to identify himself/herself at photo opportunities so that official media do not include your student's image.

YES, I give The Governor's School in the Sciences (GSNJS) permission to record the image and/or voice of the minor child named below, and I grant NJGSS all rights to use these sound, still, or moving images in any medium for educational, promotional, advertising, or other purposes in publications, electronic or otherwise, that support the mission of the New Jersey Governor's School and Drew University. I agree that all rights to the sound, still, or moving images belong to GSNJS and Drew University.
