

# Drew Community Policing Initiative - Logic Model

## POLICE-COMMUNITY TRUST / YPI

### Key Questions

How might we address problems related to lack of trust, understanding and empathy between police and the communities they serve?  
In what ways might interventions help improve these relations?  
What activities and experiences may increase positive encounters between police and the public?

### Goal

Increase respectful attitudes toward one another and positive relationships between police and the communities they serve

### Rationale

Positive interactions lead to greater understanding, empathy and respect, which encourage police and public to have better relations

### Inputs/Resources

### Activities

### Outputs

### Short Term Outcomes

### Mid Term and Long Term Outcomes

INTERVENTION: Police-Community Trust, Understanding and Cooperation

AmeriCorps Members  
Drew Conflict  
Resolution Faculty,  
Law Enforcement  
Professionals

AmeriCorps  
Members engage in  
workshops, activities  
designed to increase  
community  
perception of police  
legitimacy

Youth Police  
initiative (YPI)  
events,  
workshops, data  
collection at  
multiple times  
during project

Short Term Outcomes:  
AmeriCorps Members gain  
vital experience in data  
collection/analysis. Critical  
data about community  
attitudes towards police  
will be documented

Mid Term Outcomes:  
Increased social engagement  
between community and police  
  
Long Term Outcomes:  
Safer communities through  
increased familiarity and trust  
between community and police
